9000-0152, Service Contracting

B. Need and Uses

This justification supports an extension of OMB Control No. 9000-0152. This clearance covers the information that offerors must submit to comply with the following Federal Acquisition Regulation (FAR) requirement:

- FAR 52.237-10, Identification of Uncompensated Overtime. This provision requires offerors, when professional or technical services are acquired on the

basis of the number of hours to be provided, to identify uncompensated overtime hours in excess of 40 hours per week, whether at the prime or subcontract level. This includes uncompensated overtime hours that are in indirect cost pools for personnel whose regular hours are normally charged direct.

The contracting officer will use the collected information to perform an adequate cost realism analysis of the offerors' proposed labor rates. Proposals which include unrealistically low labor rates, or which do not otherwise demonstrate cost realism, will be considered by the contracting officer in a risk assessment and evaluated appropriately. The primary purpose for obtaining the information and using it during the source selection process is to discourage the use of uncompensated overtime.

C. Annual Burden

Respondents: 19,738.

Total Annual Responses: 19,738.

Total Burden Hours: 9,869.

Comment: The commenter expressed his approval of the details set forth under the Federal Regulations in

regard to serving contracts and other collaborative efforts in the aerospace industry.

Response: Noted. The commenter did not express an opinion on whether the estimated number of burden hours is accurate; or ways to minimize the burden of the collection of information.
